Griffin Loop: Launch Intention presented by Fabrik Projects

Los Angeles based Fabrik Projects will present Griffin Loop: Launch Intention at the LA Art Show 2023.

Launch Intention is a large scale sculptural installation created by American artist Griffin Loop. Passionate about the utility of art and the opportunity to affect everyday lives in a positive way, Loop specializes in large scale sculpture and land art that creates literal, figurative and spiritual space for the viewer. Through his project Launch Intention, Loop uses the symbol of a paper airplane to serve as an invitation for all to clarify our wants and needs and launch them into action and the world.

Loop has installed and programmed giant paper airplanes (often 50 feet in length) all over the United States from atop remote mountain peaks to inner city schools. “A paper airplane is something we all can relate to. It takes us back to a time of carefree imagination and freedom. It’s one of the first things we create and launch into the world. I use this project as a platform to connect with our intuitive self and take action in living the life we truly want.”

Loop has recently relocated from Los Angeles to Bentonville Arkansas where he is building a large studio to produce and showcase his work.

Visitors to the LA Art Show will have the opportunity to submit their personal intentions as well as take part in an interactive art piece next to the Launch Intention sculpture at the entrance of the show.
