LA ART SHOW Gallerist Talks Presented by Citi

Citi has been the official bank sponsor of the LA Art Show since 2019, providing truly impactful opportunities for exhibitors, artists, art lovers, and collectors on a global scale. This year, Citi returned to the 28th annual show with a continuation of their curated Citi space on the LA Art Show Floor, to exhibit a collection of artworks from four featured international galleries. This special exhibition extended the physical presence of these well-known galleries, Markowicz Fine Art, K+Y Contemporary Art, Fabrik Projects and Bruce Lurie Gallery to provide collectors and attendees with new perspectives on the represented art and artists.

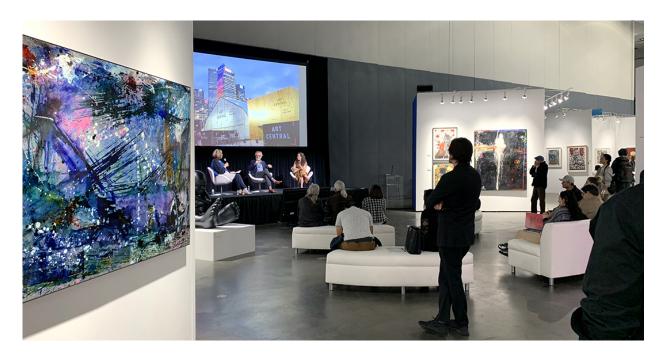

For 2023, the Citi space on the LA Art Show floor exhibited a dynamic curation of artists from featured galleries around the globe. Citi also welcomed the gallerists to its stage for a series of live Gallerist Talks.

These gallerists and selected artists they work with shared stories on how they became involved in art, the challenges and opportunities they have faced in their business, and what joy and insight their creative and challenging pursuit provides them. Hosted by Consuelo Eckhardt and MaryLinda Moss, co-curators, and producers of the LA Art Show Gallerist Talks Presented by Citi, these compelling talks focused on how artists inform the global conversation about the environment and a myriad of other important topics through their artwork.

K+Y is an art gallery created in 2011, and is dedicated to a contemporary focus that represents emerging and established international artists. The gallery is based in Paris, at

the heart of the 'Triangle d'Or', close to the Champs-Elysées. The K+Y program embraces artworks across all media, including paintings, sculptures, and photography.

Artist Peter Hoffer's studio

Since its inception, the gallery has presented solo exhibits, launched several eclectic group shows, and participates in more than 10 art fairs annually, exposing its artists to an international audience. Many of their artists have been selected for international Biennales or have had artworks acquired by prestigious private and public collections. K+Y gallery's vision is to sustain the artists' freedom of expression by exhibiting them in settings that are fertile for both the artist and the collector alike. To that end, the owner Yann Bombard has created Envie d'Art, the first French online gallery to showcase less established artists globally.

Bruce Lurie has always set the trends. He was the first to show works from Jean-Michel Basquiat in the US, and was an early adopter of Keith Haring, Andy Warhol and other start-up artists of the high-rolling art world of the early 80s. The gallery continues its particular focus on establishing emerging to mid- career artists while specializing in cutting-edge pop art, street art, abstract minimalism, photography, and a wide range of monumental sculptors.

In this Gallerist Talk we shared highlights of Bruce's career and featured in-person conversations with artists Monica Perez, Michael Kalish, and commentary from gallery Director Lan Guan.
