### The LA Art Show Thanks Our 2024 Partners!

The LA Art Show wishes to thank our valued partners for their support in 2024. We are honored to have Citibank continue as our corporate sponsor and are grateful for the collaboration with our new charity partner, the American Heart Association.

A special thanks also go to the numerous cultural partners and media sponsors and partners whose contributions were instrumental in the success of the 2024 LA Art Show.

### Show Partners

We are honored to have partnered with the American Heart Association as the exclusive Charity Partner of the LA Art Show in 2024. Our collaboration underscores our dedication to supporting their critical mission of combating cardiovascular disease and stroke, two of the most significant health challenges in our society.

We are particularly proud to support the American Heart Association in its 100th year, contributing 15 percent of proceeds from every ticket sold to the 'Life is Why™'

campaign. This initiative is crucial for CPR education and the development of science-based guidelines and techniques, strengthening the chain of survival in our communities.

## LA Art Show Proudly Supports the American Heart Association in its 100th Year!

The LA Art Show is pleased to be partnering with the American Heart Association (AHA), our 2024 charity beneficiary. We’re proud to support the American Heart Association in its commitment to help prevent death and disability from cardiovascular disease and stroke – the major health problems in our society.

We’re especially happy to be supporting the American Heart Association in its 100th year. With a portion of every ticket purchase, the LA Art Show contributes to funding the mission of the American Heart Association – which includes CPR education, training and development of science-based CPR guidelines and techniques to help strengthen the chain of survival. Dedicated to working with passion and purpose in a people-centered way, the American Heart Association has had a tremendous impact on advancing knowledge about heart and brain health with the goal to providing everyone the chance for full, healthy life.
